

Birds of Pajaro Dunes

Habitat:

Scrub: Land area between the slough and beach extending to southern border of Sunset Beach.

Slough: Lower Watsonville Slough starting at the border of Pajaro Dunes.

Mouth: Mouth of the Pajaro River visible from Pelican Point.

Beach: Sandy beach area between Pajaro Dunes and ocean.

Ocean: Visible area just off Pajaro Dunes.

Occurrence:

C: Common to Abundant. Moderate to large numbers; nearly always present and easily located.

F: Fairly Common. Moderate to small numbers. Usually present and easily located.

U: Uncommon. Small numbers, usually present, but may require search. Occurrence predictable and regular.

R: Rare. Very small numbers annually. Often requires a specific search. Occurrence predictable and regular.

X: Casual. Few records.

i: Irregular. Abundance varies substantially year to year; less numerous or absent some years.
